// PERSONAL STATEMENT

I am a Mobile App Developer. I have enrolled in Udemy courses and that helps me a lot in my skills growth. I understand the mobile app project lifecycle in depth. I can take an idea from conception and create a staging environment, gather feedback and tweak all the way through to the final product that goes live.

I am currently seeking long-term contract positions which will allow me to further improve my project skills.

// WORK EXPERIENCE

CO-WELL Asia
11/2020 - 01/2021

Internship
Working with this dynamic and fast-moving company with major brands in the market, I learned SCRUM patterns and how it helps me become a developer professional. In addition, I also learned how to work well in a team and how to solve problems in the workplace too.
